EDUCATION

CUNY Queens College (CUNY), Flushing, NY
Bachelor of Arts in Computer Science

Dec 2023

EXPERIENCE

Self-help Community Services | Volunteer

Jun 2017 – Aug 2017

CUNY Career Launch 2022 | Student Intern

Jun 2022 – Aug 2022

PROJECTS

ChatGPT Clone | [\[GitHub\]](#) | [\[Website\]](#)

Technology: React | Javascript

- Developed a ChatGPT clone app, utilizing GPT-3.5 architecture, with a user-friendly interface and intelligent conversational capabilities. Demonstrated expertise backend development, and successful deployment.

SQL query Project | [\[GitHub\]](#)

Technology: SQL Server Management Studio | Azure data studio | Docker

- Collaborate with 5 team members to design queries by different tables with the given criteria and use dependencies between the different tables to link the charts with the required data.

Grocery List Manager | [\[GitHub\]](#)

Technology: Android Studio | Java | Git

- Collaborate with 4 programmers to develop an Android application Grocery List to manage user database as Frontend/Backend Developer finished UI design alone and login backend activity ahead of schedule by one week.

Movie Web app | [\[GitHub\]](#)

Technology: Java | Spring Boot | React | MongoDB

- Engineered a Movie Web Application leveraging React for front-end development, backed by Java and Spring Boot for a seamless back-end experience. Utilized MongoDB as a primary database to effectively handle data operations and ensure optimal performance

SKILLS

Programming Languages: C++ | Java | JavaScript | Python

Tools: VS code | Azure Data Studio | AWS | Anaconda | Jupyter Notebook | MongoDB

Systems: SSMS | Git | Linux

Frameworks: Android | TensorFlow

LEADERSHIP

Project Basta Discovery | Fellow

Feb.2023-May-2023

Selected to participate in an intensive 9-week professional development career prep program aimed at helping first-generation college students secure an entry-level job.

CERTIFICATION

DeepLearning.AI TensorFlow Developer [\[Link\]](#)

Jun.2023
